Dear members of the DEC HHC Technical Working Group,

In anticipation of our May 11<sup>th</sup> meeting DEC has collected or developed several background documents to help facilitate the conversation. The following is included for your consideration:

1. Meeting #7 Logistics
2. Meeting #7 Agenda
3. Meeting #6 draft notes
4. DEC *Draft* Statewide v. Regional Whitepaper
5. ***Draft HHC Issue Gap Inventory for Workgroup***
6. *Establishing Alaska Subsistence Exposure Scenarios*. (1997) IDM Consulting for the Department of Environmental Conservation
7. *Evaluating Risk to Subsistence Food Users* (2003) Abstract for ASTSWMO poster session. Department of Environmental Conservation

The Issue Gap Inventory is intended as a summary of what we have discussed during our meetings. We will not have time to discuss each issue during Meeting 7, but would like to discuss the next steps for the workgroup. **By May 31**, we request that each workgroup member add

- their thoughts on each issue in the inventory
- any other questions we should add
- any suggested changes to the table

This will help us put a bookmark in our progress to date, so that we can come back later and consider the whole HHC picture and how these issues affect each other.

Please let me know if you have additional questions or concerns.

Thank you,

Brock Tabor
